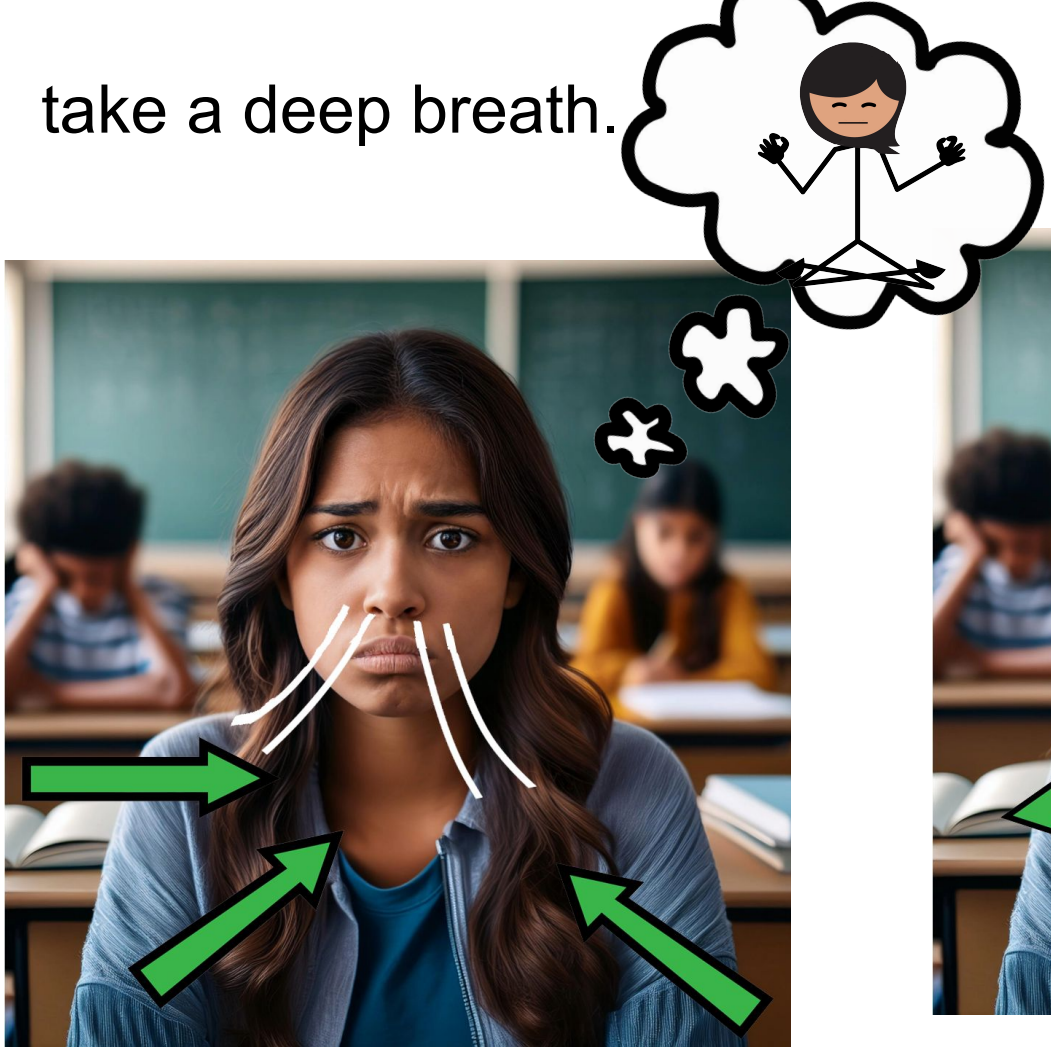
ICE in the school

Social Story

If ICE shows up at your school…

and you see an officer…

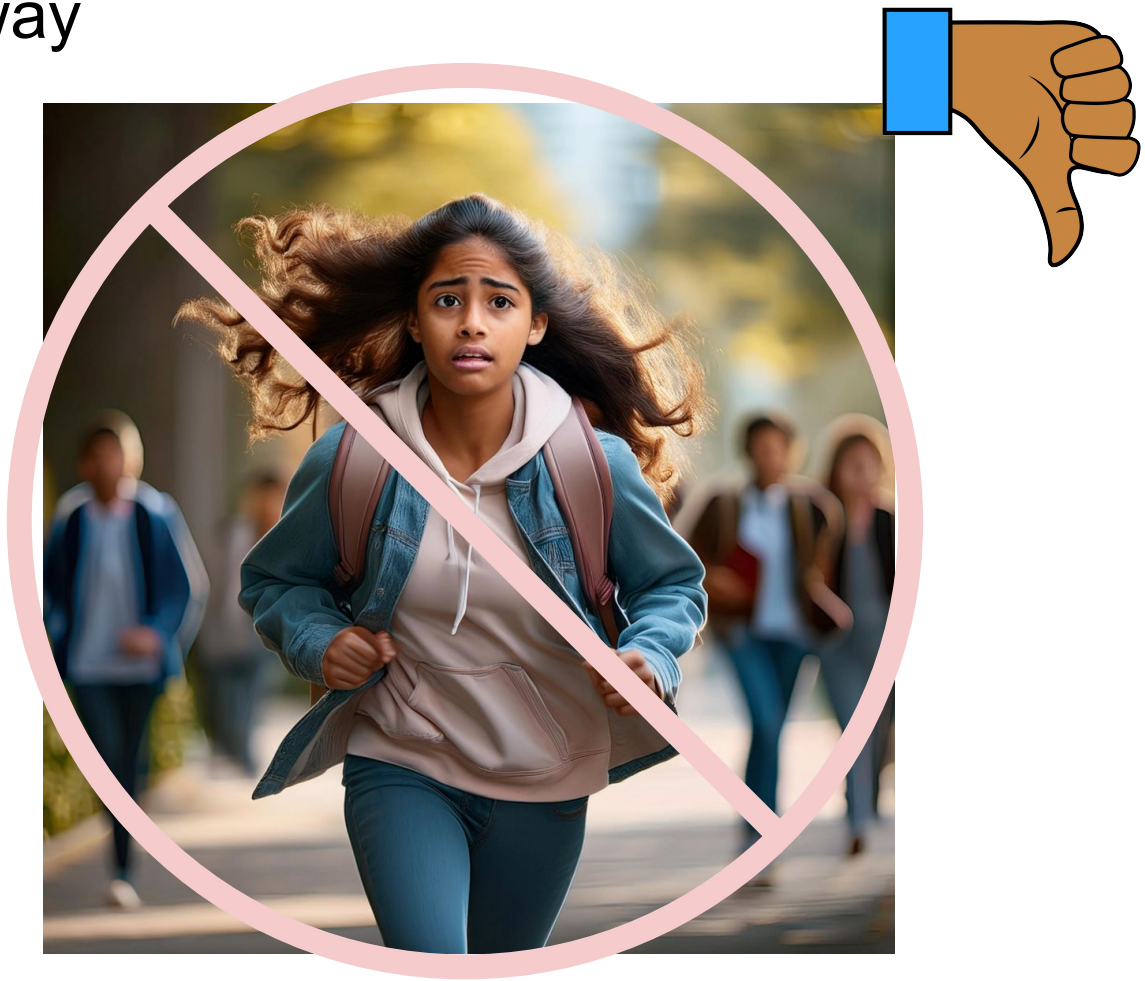
take a deep breath.



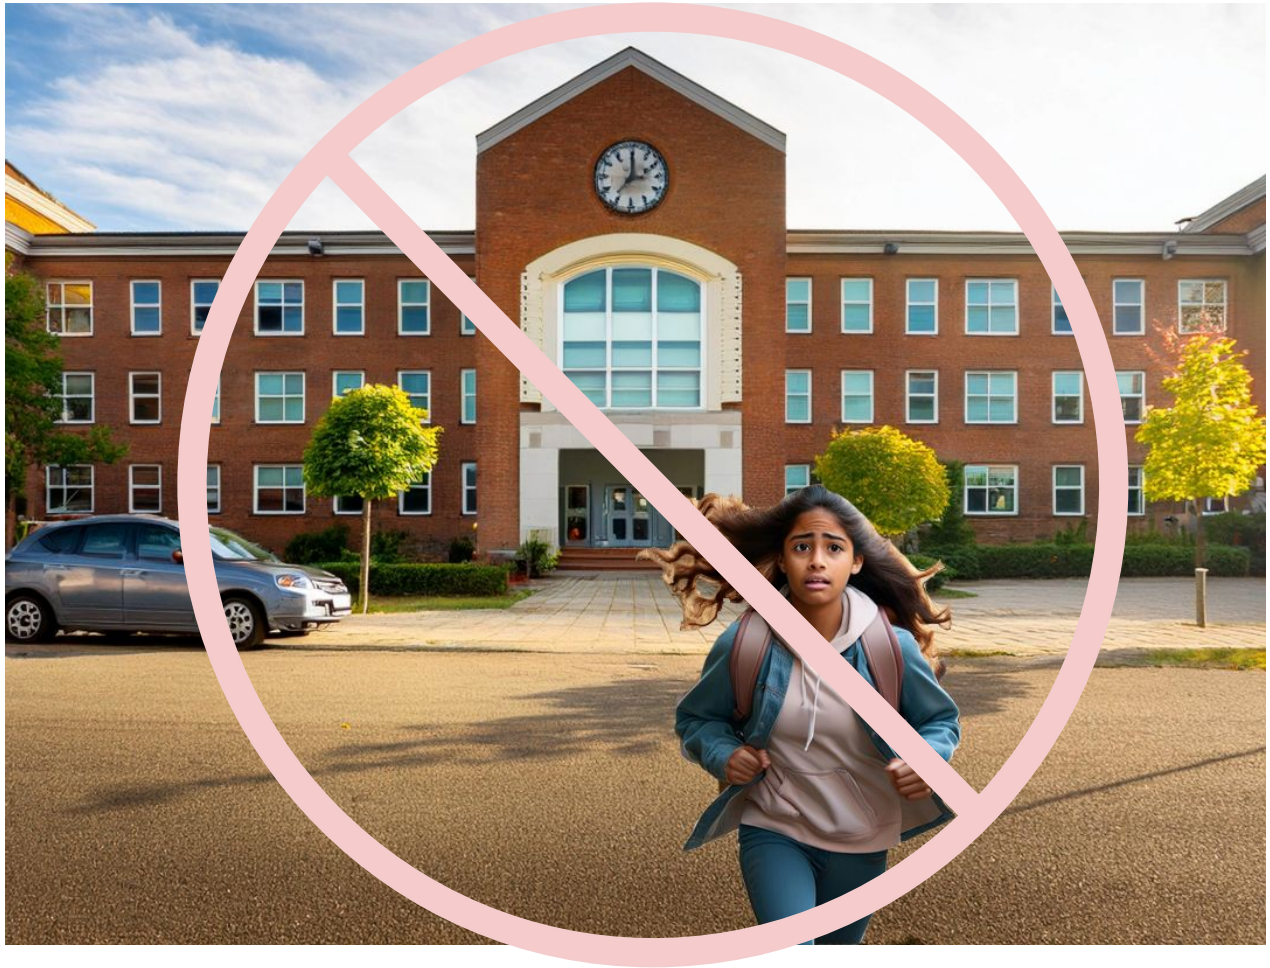
Try to stay calm and quiet.

Stay in your classroom.

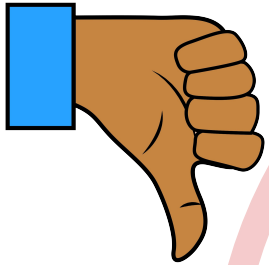
Do not run away



or leave the school building.



You do not have to talk to ICE officers.



You do not have to answer their questions

or sign anything.

If you are worried, call your family or another trusted adult.

Your parents or caregivers can help you know what to do.
